## *Europe vs. US Model Main Differences*

Status July, 2014

- 3 years / 100,000 Km Bumper to bumper warranty and 6 years Corrosion
- 3 years Roadside Assistance
- Z51 Performance Pack Standard
- Exhaust Performance system 4 Valves (add. 5HP) standard
- Performance Traction Management standard (TC system like in a race car, 5 modes. 3 of the 5 modes are with stability control system)
- Rear Fog Lamps
- European language package for Driver Info, Radio, Navi
- European Audio System (European frequency, TMC and Digital Audio System DAB/DAB+/DMB-R)
- European Navigation System
- Up-level Anti-Theft System
- Euro 5 homologation with lower CO2 emission rate (Eco default mode)
- Magnetic Suspension Standard with specific calibration (German Autobahns Tour and Sport Mode are refined for speed and handling)
- No garage door opener in Europe cars
- ECE lighting on Europe cars, front headlamp washers
- Metric instrumentation and driver info
- Front and rear tow hooks
- European noise calibration
- European regulatory compliance and labeling
- ECE rear cargo restraint system
- ECE outside rear view mirrors with side repeaters
- Electronic steering with specific calibration (EU Roads more precise at center and specific tuned for speed)
- Electronic steering column lock

## *Interior Trims 2LT vs 3LT*

Status July, 2014

### 2LT

The 2 LT trim level will be the most popularly equipped with comfort and convenience features and includes color-keyed console and door armrest. 2LT also includes:

- Console and door panels in interior color
- Lumbar/wing adjust
- Heated / vented seats
- Seat emblems
- "Bose" Premium Audio
- Auto-dimming mirrors
- Memory Package
- Head-up display
- Enhanced Theft Deterrent Package
- Luggage shade/net
- Navigation

### 3LT

The 3LT trim level features a leather-wrapped color-keyed interior. 3LT also includes:

- Custom leather-wrapped interior
- Napa Leather seating services
- Instrument Panel in interior color

*Note: Pre-production model shown. Actual production model may vary.*

## *Performance Data Recorder (PDR)*

Status July, 2014

(PDR) will be available on all Corvette models for the 2015 model year. Co-developed with Cosworth, this fully integrated system allows users to record high-definition video with telemetry overlays of their drive experiences on and off the track. HD-quality videos can be reviewed in the vehicle (when parked) or downloaded to a personal computer for sharing via social media.

### SYSTEM COMPONENTS INCLUDE:

- High-Definition Camera
  - Mounted within the windshield header trim
  - Records the driver's point of view through the windshield
- Self-Contained Telemetry Recorder
  - Uses a dedicated GPS receiver that operates at 5Hz (five times faster than the in-dash navigation system) for more precise positioning and corner traces
  - Dedicated SD Card Slot
    - Located in the glove box
    - Allows for recording and transferring video and vehicle data
    - Data can be uploaded to Cosworth Toolbox telemetry software (similar to that used by Corvette Racing) to help improve driver's techniques and lap times

Early production PDR image shown.

### PDR CAN RECORD VIDEO WITH FOUR OPTIONS:

- Track Mode – shows the maximum level of data on the screen, including speed, rpm, g-force, location-based map, lap time and more
- Sport Mode – shows fewer details but includes key data including speed and g-force
- Touring Mode – no data overlay, just video and audio
- Performance Mode – records performance metrics such as 0-to-100 km/h acceleration and elapsed time and 0-100-0 km/h runs
